Cable Plus XXL

Affordable, Cost-Effective Plastic Cable Seal

The Cable Plus XXL seals are very user-friendly and highly tamper evident. They can be applied to secure various applications for a range of security requirements.

The seals are secured as soon as the wire is clicked into place with the locking mechanism.

Cable Plus XXL seals are widely used on trucks, tanker trucks, and air cargo containers, shipping containers, rail cars, calibrators and valves across industries.

Features

- 1** Molded with a high-impact ABS material with a galvanized steel wire rope. The special high-resilient ABS material does not break easily but will clearly show evidence of tampering.
- 2** One end of the is cable is permanently secured into the locking body, providing greater security.
- 3** The Cable Plus XXL is etched with permanent laser marking for names, logos, sequential numbers and barcodes. Laser marking offers the highest level of security as it cannot be removed or placed.

Technical Specifications
